

# Celestial Alignment

May 20, 2012

9am-10:15am

Align Yourself with your highest destiny

On May 20, 2012, our earth, sun and moon will align with the Pleiades star cluster during a full solar eclipse. This powerful alignment has not occurred for 26,000 years and is an incredible opportunity for great healing and expansion. These kinds of celestial events open up enormously amplifying energy fields, offering us an opportunity to break free of paradigms and thought forms that no longer serve us, break out of long-held belief systems that no longer represent us, and blast through any physical, mental or energetic barriers that might have limited us in the past. When we position ourselves correctly we are able to use this amplified energy to connect to our highest state of consciousness and project for a prosperous, healthy, happy future. Join Santosh this Sunday at 9am at the Jade Apple and take advantage of this historical celestial event.
